## PORTABLE WALK THROUGH METAL DETECTOR

## MAXIMUS GLOBAL TECHNOLOGY doo.

22330 NOVA PAZOVA, CARA DUŠANA 150, MAT BR:20927887 ,  
PIB: 108080054 ,MOB: 062/42-15-15 , WEB: [www.maximus-secure.com](http://www.maximus-secure.com)

## Features

Portable walk through metal detector adopts advanced techniques ,with a number of patents and certificates on material, the appearance, technology and structure .

It is a lightweight ,high-performance walk through scanner with high sensitivity

,portable,waterproof

ect features,One operator can transport it easily to any locations and finish installation within 5mins ,

Ideal for security checks at stadiums, conferences, schools and other events. The unit is easy to operate and settings are self explaining. .

The gate adopt an electromagnetic field to detect metal objects through sound & light alarm. The gate

consist of the host , the high-frequency signal generator, signal receiver , infrared sensors and other components , with super metal detection function, the unique internet remote control management system, and can be taken apart to 8 components, It is easy for you to carry and transport .

### Advanced Technology

Multi-zone technology: 8,16,24 detection zones,can change detection zones intelligently (upgrade technology of each zone can be provided).

Touch screen: 7-inch HDMI LCD touch screen,iPad interface style,easy to operate and understand.

Mobile connection technology: realize mobile APP remote control

IP Grade: IP67 superior waterproof performance

Self calibration once power on

Self diagnostic, it will inform the user when exit the system

Start-stop technology:infrared devices with automatic start-stop technology.

### Features and Functions

Adjustable sensitivity of each detection zone

Multi-alarm sounds to choose

Operating frequency can be adjusted manually or automatically

Move after folded or installation(two move methods to choose)

Detection technology: Even detection technology,no blind spot

Internet technology:Remote upgrade system and remote control system

Working band: 120 working bands

Sensitivity of each detection zone:355 level

PIB: 108080054 ,MOB: 062/42-15-15 , WEB: [www.maximus-secure.com](http://www.maximus-secure.com)

Statistics: Record the pass and alarm numbers

Query function: The system has real-time information query function

Intelligent Standby: The system has intelligent standby operation alerts

Detection speed: more than 60 people pass and detect in 1 minute

## Technical Parameters

Detection objects: knives,guns,coins

External Dimension:2250x850x500mm

Passage Dimension: 2051x710x500mm

Fold Dimension:889x606x484mm

Packing Dimension: 948x666x525mm

Humidity: 99%, non-condensing

Working environment: -40 °C~85 °C

Weight: NW 42KG, GW 50KG

Input : AC 110V~240V/50Hz~60Hz

Output : DC 12V/5A 12W

Power supply: the whole system is equipped with polymer battery, life time 8,16,24,48,72 hours optional.

Power off

Standby mode

Pass

Alarm
